# extraPURE series-E WATER CONDITIONING SYSTEM

## extra SIMPLE

Your family deserves all the benefits of conditioned water. The extraPURE series-E water conditioner provides high quality water at a family friendly price. The conditioner and brine tank are built to be corrosion and impact resistant, providing you with years of worry free performance. Even if you have the most challenging water problems, you can depend on extraPURE to meet your needs.

- Improves longevity and feel of clothing.
- Softer, smoother skin and hair.
- Higher quality water.
- Extends the life of household appliances.
- Save hundreds of dollars on cleaning supplies.

### BY-PASS VALVE OPERATION

Ideal for applications not requiring conditioned water such as lawn or garden irrigation, pressure washing or filling the family pool.

### HIGH-CAPACITY BLACK CAT RESIN

Exceptional hardness removal. Black Cat resin's 8% crosslink polymer is designed for high flow rates, extending life expectancy longer than other brands.

### PROVEN PERFORMANCE

Fully automatic "set it and forget it" control system regenerates at a preselected time. Ideal for households with known water regimens.

### 7-CYCLE NORYL CONTROL VALVE

Corrosion resistant construction for years of quality service.
